

**Title:** Citrus Field Day – Weed Science & Precision Ag

**Date and Time:** June 20<sup>th</sup>, 2018 – 9:00 am to 12:00 pm

**Location:** Southwest Florida Research and Education Center (SWFREC),  
2685 State Road 29 North, Immokalee, Florida 34142

**Pre-registration is required.** No registration fee and lunch is free. To reserve a seat, call 863 674 4092, or send an e-mail to Dr. Mongi Zekri at [maz@ufl.edu](mailto:maz@ufl.edu)

**2 CEUs for Certified Crop Advisors (CCAs)**

**2 CEUs for Pesticide License Renewal**

Attendees will have the opportunity to understand the benefits of utilizing herbicide programs based on residual herbicides and their combinations for enhanced weed control in citrus. Also, the utilization of precision farming technologies for effective weed management in citrus will be demonstrated.

<b>Agenda</b>	
8:45 – 9:00	Check-in Refreshments
9:00 – 9:15	Transport to SWFREC Grove
9:15 – 10:00	Residual herbicide program trials (SWFREC Citrus Grove) - Dr. Ramdas Kanissery & Weed science team will show a field trial where pre-emergent herbicides and their combinations are tested for their weed control efficacy in citrus groves.
10:00 – 10:45	Precision Ag demonstration (SWFREC Citrus Grove) Dr. Yiannis Ampatzidis and Precision Ag team will present UAV-based technologies/solutions for citrus management and precision spraying technologies for weed management
10:45 – 11:00	Transport back to the main building
11:00 – 11:30	Updates from herbicide synergy trial conducted in 2017 (SWFREC Auditorium). - Dr. Ramdas Kanissery will provide an update on the results of the herbicide synergy trial conducted in 2017.
11:30 – 12:00	Dr. Yiannis Ampatzidis (SWFREC Auditorium) Precision Ag updates
12:00	Lunch

Speakers: Dr. Kanissery and Dr. Ampatzidis, UF, Immokalee IFAS Center

Program Coordinator: Dr. Mongi Zekri, UF-IFAS, Hendry County Extension Office

Program Sponsor: Sarah Markle with Valent
