Location
UF/IFAS Citrus Research and Education Center
700 Experiment Station Road, Lake Alfred, FL 33850
For directions, visit http://www.crec.ifas.ufl.edu/about/map/map.shtml

For the past 100 years, the University of Florida (UF) Citrus Research and Education Center (CREC) has been honored to assist the citrus industry in meeting its developmental needs through its Research, Extension, and Teaching programs. CREC is the oldest and largest off-campus experiment station in UF’s Institute of Food and Agricultural Sciences (UF/IFAS) and is unique among research centers in that it focuses entirely on one commodity, citrus. CREC discovers and delivers innovative solutions that empower citrus and other agricultural interests to conduct responsible and profitable business. CREC fosters scientific excellence and efficient use of resources.

For more information, please contact
Jamie Burrow, 863-956-8648, jdyates@ufl.edu

Master Gardeners are invited to spend a day with UF/IFAS Citrus Specialists to learn about diseases, pests, and tree maintenance of Florida citrus in the home landscape along with the current status of the industry and research. An optional tour will be available in the afternoon.
