<td>Citrus Black spot</td>
<td>4.0 to 8.0 ounces GEM 25 WG/Acre</td>
<td>Begin applications preventively and continue throughout the growing season using a 7- to 21-day spray interval.</td>
</tr>
</tbody>
</table>

Restrictions:
- Do not apply more than 32 oz. of Gem™ per acre per season. Do not apply Gem™ within 7 days of harvest. To limit the potential for development of disease resistance:
- Do not make more than four (4) applications of Gem™ or other QoI fungicides per season.
- Do not make more than three (3) sequential applications of Gem™. Then alternate to at least an equal number of sequential applications of labeled, effective non-QoI fungicides with a different mode of action.
