^1 Aerial applications of Agri-mek 0.15EC are only labeled for citrus leafminer control.

^2 The use of spray adjuvants with Danitol 2.4EC is prohibited by label.

^3 Aerial applications of Micromite 80WGS cannot be made within 1,000 feet of bodies of water.

^4 Additional dimethoate products with similar use patterns may be available.

For more information about low volume spraying, please contact your local multi-county extension agent, http://citrusagents.ifas.ufl.edu or visit www.crec.ifas.ufl.edu
